Continuation Sheet 1 File No Current No of Page

Note dated 4th August 1943 of the Minister for Public Works.

---

On my way to Mysore on the 21st of July in connection with the Birthday Festivities, I inspected the Government Horticultural Farm and the railway flag station newly constructed at Maddur. I also inspected the Cauvery Channel from its origin to the Tippanhalli regulator and then the Irwin Canal up to French Rocks.

At Mandya, I heard the representation of the ryots regarding the inconvenience that is alleged to have been caused due to the present system of regulation of water supply for irrigation. The ryots represented that they may be permitted to grow Coimbatore Sanna instead of Bangara Kaddi as the latter cannot be grown during this season. This was subsequently discussed with the Dewan and it has been settled that as a special case during the year permission may be given to grow Coimbatore Sanna in place of Bangara Kaddi paddy.

The ryots next represented that the rule prohibiting the manufacture of jaggery may be relaxed. The Deputy Commissioner, Mandya, expressed his opinion that this relaxation was not advisable in the interests of the Sugar Factory and stated that permission is being given to prepare jaggery out of cane wherever such cane is not required by the Factory.

Lastly the ryots represented that the two furlong dry belt zones may be extended early to the Irwan Canal tract and said that the insistence on all the ryots of a village to execute mutchalikas agreeing to the same may be done away with and that the opinion of the majority only need be taken into account. They said that in some instances the majority had actually prevented the advantage of the dry belt to a village. This request requires examination.

I visited Hunsur on the 24th instant accompanied by the Deputy Commissioner, the Superintending Engineer, Mysore Division, the Executive Engineer and the President, Mysore District Board. The local institutions were inspected. I was presented with an address by the Hunsur Municipality. A copy of the address, a statement of representations and my remarks thereon are placed below.

On the 25th morning, I accompanied the Dewan during his inspection of the Hullahalli Dam site, Nanjangud Taluk (Kaveri Reservoir Scheme) and also Karapur Camp. Action is being taken separately regarding the Kabini Reservoir Scheme.

---

Representations made during the visit of the Minister for Public Works to Hunsur on the 24th July 1943.

---

Representations contained in the Municipal Address:-

| | |
|---|---|
| (1) The drainage scheme for the town may be completed within a year or two, half of the amount required for the scheme being given as a Govt. grant and the other half as a loan recoverable from the Municipality in fifteen annual instalments. | This question will have to be considered as soon as supply of cement is assured. The D.P.C. Secretariat may consider the question of grant of loan. |
| (2) The channels of Hanagod series and Uddur Nala series may be standardised and water made available to all the wet lands. Bridges may be constructed on these channels to facilitate cart traffic. | May be examined. |
| (3) An aniout may be constructed across the halla above the Hyrige tank and water may be allowed to come to the tank through a feeder channel. The contribution amount may be collected only during the year when the tank is full and lands are cultivated. | May be examined. |
| (4) A High School may be started at Hunsur from the next academical year for the use of Hunsur and Periyapatna taluks. | The question of grant of a Municipal High School may be examined, if and when the Municipality sends up a resolution to this effect. |
| (5) The accommodation in the Boys' Middle School is insufficient and may be extended. The number of teachers in the school is inadequate and some more teachers may be posted. | The question of shifting this school to the Primary School building which is very spacious may be considered. The latter building may be provided with more ventilation and light and the flooring improved early. |
| (6) A Girls' School may be started at the place as soon as possible. | It is reported that there are a large number of girl students and the question of a separate school for them may be examined. |
| (7) A grant of Rs.10,000/- may be sanctioned from the Town Improvement grant for the improvement of the Shandy maidan at Hunsur. | May be examined. |
| (8) The Goduve Nala urder Uddur nala may be given to ryots for wet cultivation. | May be examined. |

---

| | |
|---|---|
| (9) The interior toll gate near Nellur pala may be shifted to another place and the Hunsur, Begur road may be exempted from payment of toll. | May be considered. |
| (10) The minor tanks in the Hunsur taluk may be restored early and thus help the ryots. | It is understood that there is already a scheme in regard to this and this may be examined. |
| (11) The Government Primary School building is ill ventilated and the flooring is very bad. These may be improved immediately. | This is quite essential and further action may be taken in the matter early. |
| (12) A path may be allowed across the Uddur Hala land so as to go to the Uddur Kaval lands which are under the Uddur Hala and also build a bridge over the halla emenating from Kenchanna-kere, Hunsur Taluk. | May be examined. The Executive Engineer may also inspect the spot. |
| (13) An industrial school may be started at the place so as to improve the economic condition of the people there. | May be referred to the Director of Industries and Commerce. The residents of the place represented that a ginning factory may be started there. If any person comes forward to start such a factory there, the question of giving him all possible help may be considered. |
| The residents of Hunsur represented that:- | |
| (14) The lands under the Uddur Hala which are situated at a high level and do not receive water may be removed from the achkat. | May be examined. |
| (15) The Government buildings at Hunsur may be provided with electric lights. | May be considered after the war. |
| (16) The local Municipality may be allowed the right of electing a non-official President. | May be considered sympathetically. |
| (17) The Muslims of Hunsur represented that a compound may be constructed around the Urdu Boys' Primary School. | May be considered favourably. |
| (18) The residents of Hunsur represented that arrangements may be made for the supply of agricultural implements from the Depot at K.R. Nagar. | May be referred to the Director of Agriculture for immediate action. |

Instructions of the Minister for Public Works during his visit to Maddur on the 21st July 1943 (9

---

The flag station constructed at Maddur is not properly maintained and a large number of tiles are blown off

It seems that the Horticultural Department wants to take over this building to avoid the approach road to the Horticultural Farm The Chief Engineer, Mysore Railways, will prepare another estimate for constructing a building at the present site of the flag station and the estimated cost may be given by the Horticultural Department.

The approach road to this may be taken up by the P.W.Department, as ordered already.

Itld J.M.I.
